

SFARET

Innovation & Empowerment

Revolutionizing Academic Support in Education.
Be the First Global Administrative Virtual System Powered by AI Technology

INTRODUCTION

SFARET

EMPOWERING EFFICIENCY THROUGH ADVANCED TECHNOLOGY

- Africa, home to about **1.3billion people**. A continent blessed with huge natural resources, massive arable land and a youthful population is currently being ravaged by unrest, hunger and poverty – fueled by rising number of unemployed youth population, lack of opportunities and adequate support for businesses and start-up.
- SFARET Technologies is dedicated to offering advanced academic virtual assistant solutions specifically designed for the education sector. By leveraging cutting-edge AI technology and automation, our services cater to the administrative needs of educational institutions, teachers, and academic works.
- This new ecosystem will facilitate integration of African Youths, Teachers, Students, Academic Institutions and Educational Sectors in whole to the emerging global digital economy i.e. AI, in **solving some of the big problems in the continent** concerning Education along the journey.
- Our technology infrastructure comprises AI-powered tools for data analysis, natural language processing, chatbots, and task automation called AZUMA AI. We utilize secure, cloud-based solutions for data storage, accessibility, and collaborative work. **Creating millions of jobs and new educational learning intervention** in this process.
- **SFARET** is on a mission to Empowering Efficiency Through Advanced Technology and top United Nation Sustainable Development Goals (SDGs Goals 1, 8, 9 and 11), as we build the world's first Be the World First Administrative Virtual System integrated Driven AI Technology.

SFARET

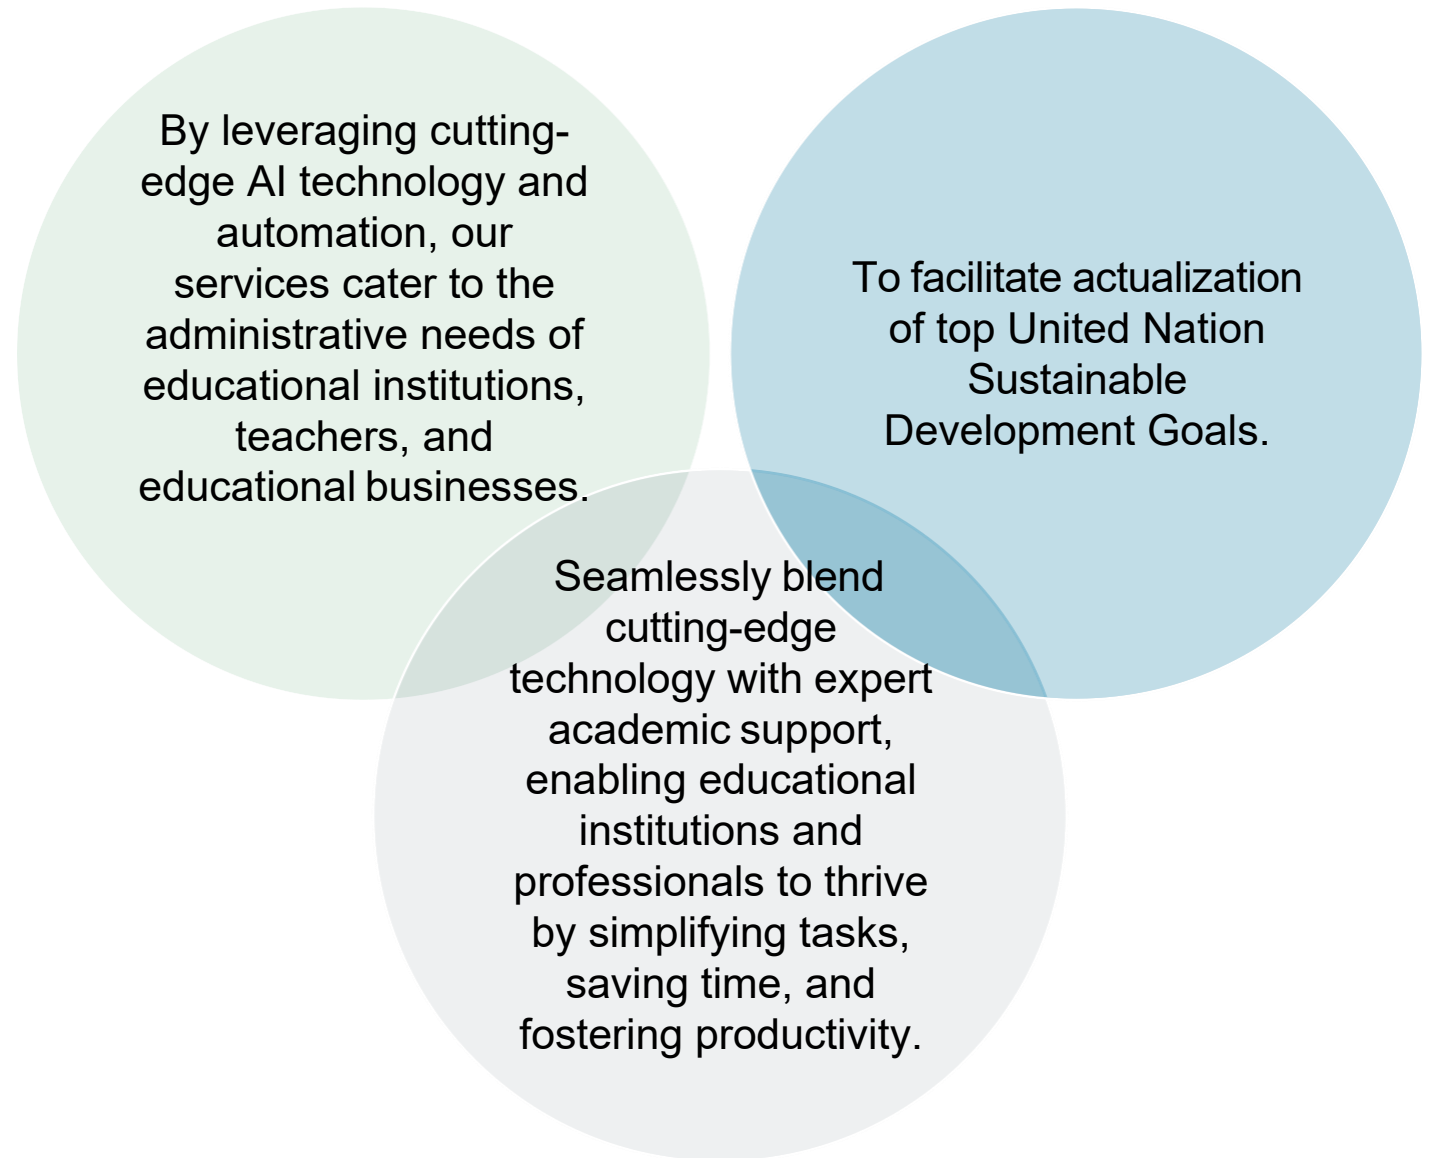

EMPOWERING EFFICIENCY THROUGH ADVANCED TECHNOLOGY

GOALS/OBJECTIVES:

*Innovation, Excellence,
Adaptability, Integrity.*

OUR MISSION

“Empowering Educational Ecosystem Through Advanced Technology to create flexible, user-friendly learning and academic experiences.”

Sustainable development goals (SDGs) in focus

SFARET is built to accelerate the actualization of six of the SDGs 2035 in Africa.

1 NO POVERTY

4 QUALITY EDUCATION

8 DECENT WORK AND ECONOMIC GROWTH

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

11 SUSTAINABLE CITIES AND COMMUNITIES

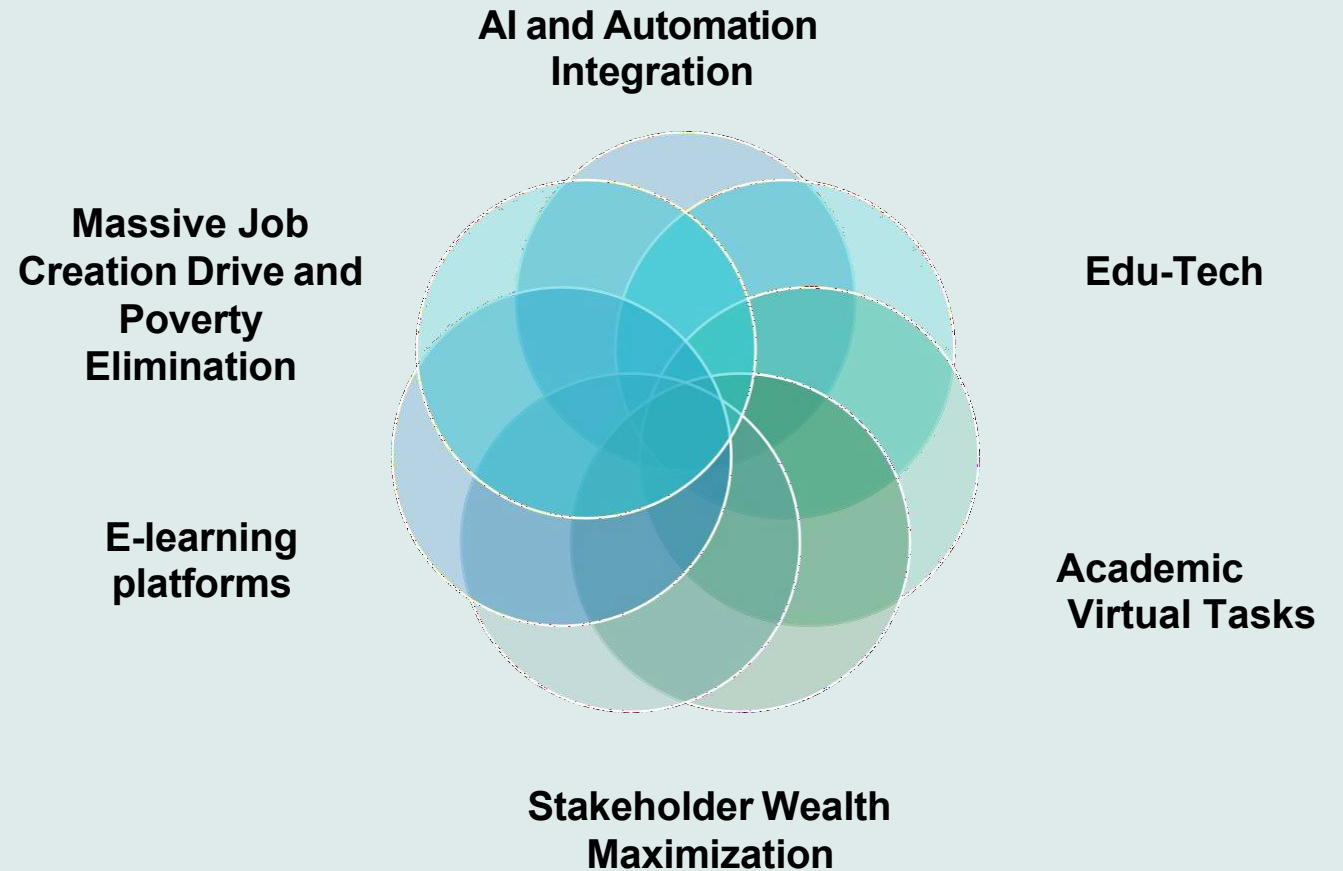

PROJECT Objectives

Sfaret Team is building a tech that is dedicated in offering advanced academic virtual assistant solutions specifically designed for the education sector. By leveraging cutting-edge AI technology and automation, our services cater to the administrative needs of educational institutions, Students, teachers and others.

SFARET

EMPOWERING EFFICIENCY THROUGH ADVANCED TECHNOLOGY

The primary objective of SFARET TECH Project is to facilitate Education system and socioeconomic development within the country to other African nations.

THE BIG PROBLEM

POVERTY

AFRICA, is a Resource-Rich Continent. Yet, she is said be Poor.

Although Africa is a resource-rich continent with huge potential – Africa is regarded as the Poverty Capital of the World, with over 40% of her Population living below poverty line.

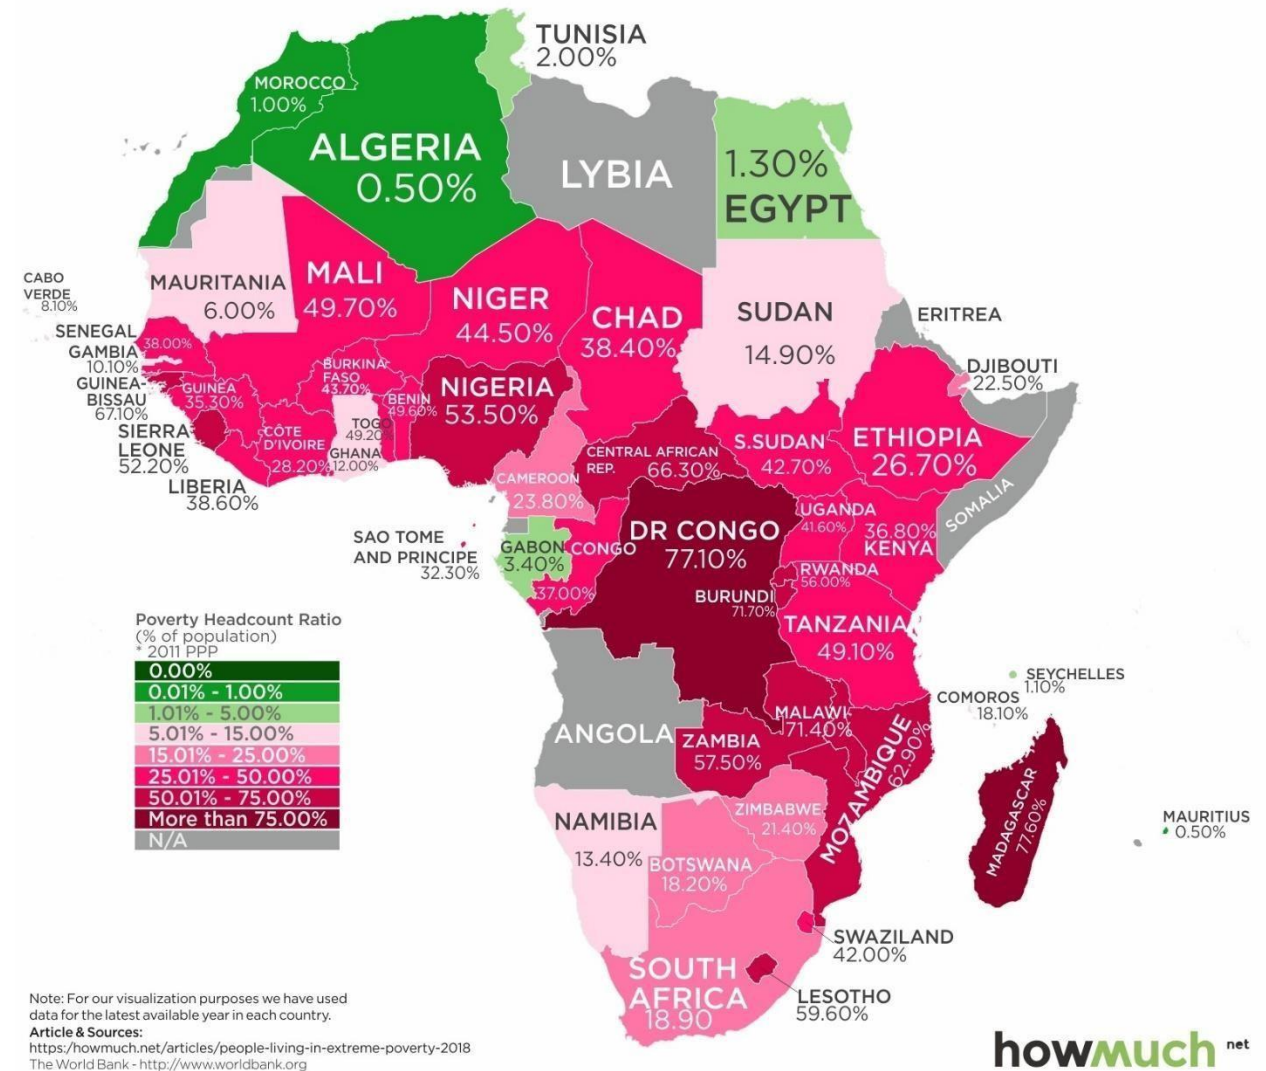

According to world bank report , 40 % of the **population** in Africa lives below the US\$1.90-a-day **poverty** line in 2018 and Sub- Saharan **Africa** accounting for two-thirds of the global extreme **poor population**.

Recent data also indicate African countries continue to **have the highest poverty and unemployment rates** in the world.

REFERENCE:

- <https://www.worldbank.org/en/programs/lsmis/brief/nigeria-releases-new-report-on-poverty-and-inequality-in-country>
- <https://blogs.worldbank.org/opendata/african-countries-show-mixed-progress-towards-poverty-reduction-and-half-them-have-extreme>

People Living in Extreme Poverty in Africa Percentage of Population Living on less than \$1.90 a day*

Alarming UNEMPLOYMENT RATE

Africa is facing the **challenge** of creating nearly twelve million additional jobs annually to contain **unemployment**, according to the latest figures from the AfDB, which estimates the number of **unemployed** young people on the continent at **nearly 60%**.

In Nigeria, with a labor force of 80.2 million, that means about **21.7 million Nigerians** are **unemployed**, a figure that exceeds the population of 35 of **Africa's** 54 countries.

Amongst these, are young **Nigerians** aged between 25 and 34, the largest bloc of the labor force, the **unemployment** rate currently stands even higher, at 30.7%

FAILED EDUCATION SYSTEM

The education system is not only expensive, but also large in effective.

Our Education system is largely producing graduates than business creators which are rather job seekers – who do not have requisite skills and competency required to be relevant in today competitive economy.

Some major challenge

- Poor quality environment (e.g., infrastructure, overcrowding, sanitation, violence)
- Poor quality content (e.g., outdated curriculum, inadequate materials)
- Poor quality processes (e.g., untrained teachers, poor school management)
- National legal framework (e.g., **lack** of compulsory **education** requirement)

- <https://www.tandfonline.com/doi/abs/10.1080/09718923.2007.11978347>

CRITICAL INFRASTRUCTURE FAILURE

is a major factor limiting Socio-economic development and business growth across Africa

According to AfDB, Underinvestment in infrastructure. Physical infrastructure across much of the continent is a challenge to productivity.

And according to World Bank – the main problem of Africa's economy are lack of funding for roads, telecommunications, water, electricity and more are impeding the continent's productivity by around 40%.

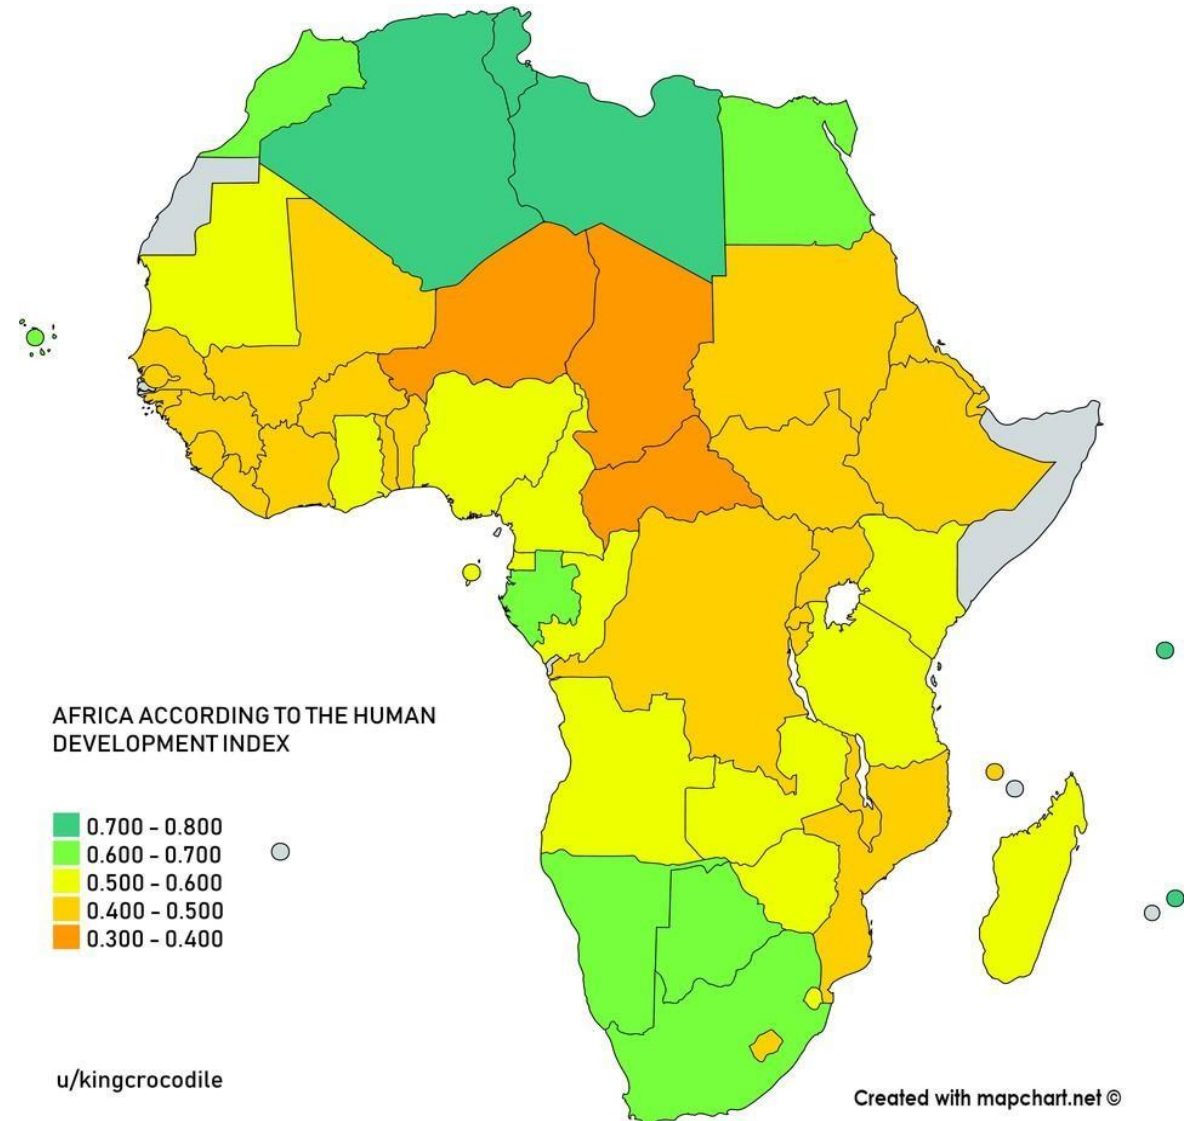

This “failure of critical infrastructure” is a major risk to business across Africa.

minds-africa.org also state poor infrastructure, underutilized agricultural capacity, poor education and lack of proper institution and exploitation by corrupt officials– as major problem facing the continent.

THE PROBLEM in summary

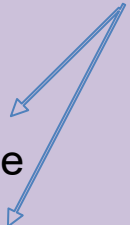

There are many challenges facing the World and Africa in particular, In Africa, millions of youth are left without the tools they need to succeed. With SFARET Technologies, we are providing accessible AI-powered tools to educators, creating job opportunities, and bridging the digital divide. Your support can directly impact these lives.". Some of this BIG problem includes:

- | | |
|--|---|
| • Difficulties with Edu-Learning | Ensuring consistent quality in education delivery remains a challenge. Maintaining high standards across diverse educational settings and evaluating learning outcomes effectively is an ongoing concern. |
| • Limited Digital Economy Integration | Digital economy integration obstacles – limiting connection and exploration of global digital economy opportunities (Innovations), despite technological advancements, unequal access to quality education persists globally. |
| • Growing Unemployment Numbers | The growing challenge of unemployment in Africa, the latest figures from the AfDB, estimates the number of unemployed young people on the continent at nearly 60% . |
| • Weak Socioeconomic Development Drivers & Platform | Poor socioeconomic drivers and physical Infrastructure prevalent across the continent – this is limiting productivity. |
| • Failed Education System & Delivery Platform | The pace of technological evolution requires educators and institutions to continuously adapt and update their teaching methods, infrastructure, and curricula to remain relevant and effective. |

THE SOLUTION

OUR SOLUTION

Seamlessly blend cutting-edge technology with expert academic support, enabling educational institutions and professionals to thrive by simplifying tasks, saving time, and fostering productivity.

- 
- 
- 
1. Technological advancement & Usage
 2. Global Digital Inclusion Difficulty
 3. Poor Infrastructure & Weak Industry Structure
 4. Rising number of Unemployment
 5. Education System Collapse
 6. Prevalent Poverty

The rapid integration of technology in education has revolutionized teaching and learning methods. Digital platforms, AI-driven tools, virtual classrooms, and adaptive learning technologies are increasingly prevalent, offering personalized learning experiences and expanding educational access globally. E-learning platforms, MOOC providers, and remote learning have gained immense popularity, provided flexible learning opportunities and catered to diverse learner needs.

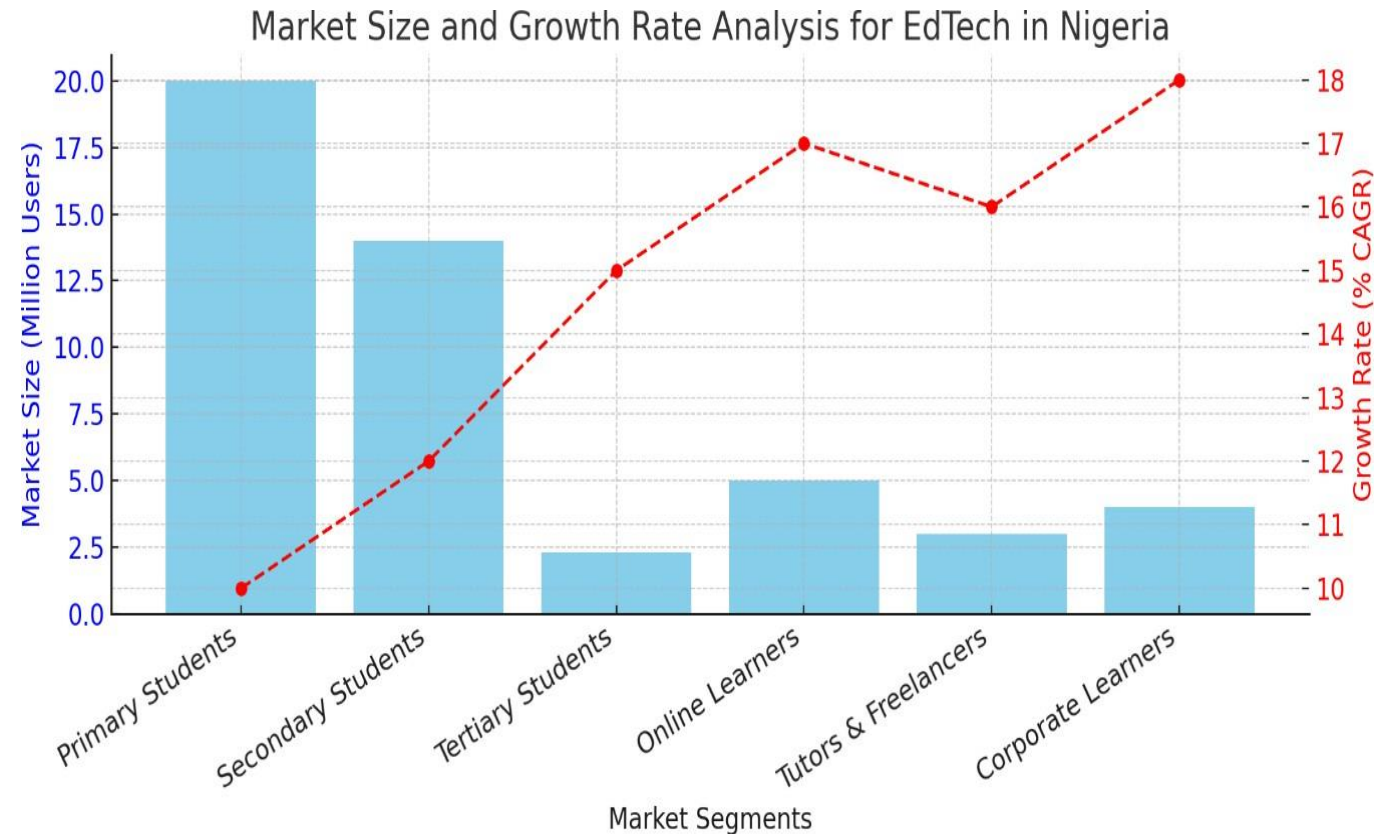

POTENTIAL TARGET MARKET IN THE EDUCATION ECOSYSTEM

Schools & Educational Institutions (Primary, Secondary, Tertiary)

- Private & Public Primary Schools
- Secondary Schools (High Schools, STEM-focused schools, etc.)
- Universities, Polytechnics, Colleges of Education
- Technical and Vocational Training Institutions
- E-learning and Distance Learning Programs

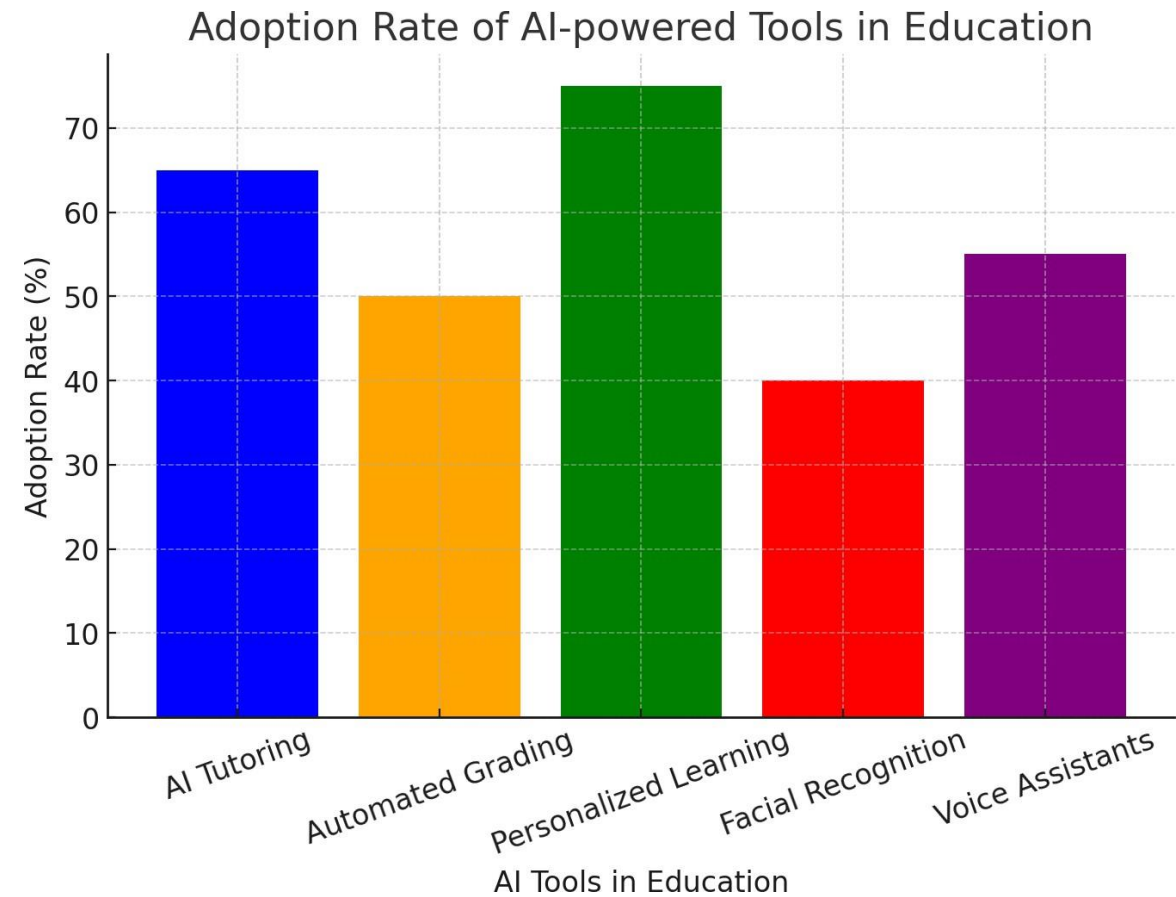

💡 **Market Size Insight:** Nigeria had over **20 million** students enrolled in primary education, **14 million** in secondary, and **2.3 million** in tertiary institutions in 2020 ([World Bank](#)).

📈 **Growth Rate:** The Nigerian EdTech market is projected to grow at **over 17% CAGR** by 2028 due to increasing digital adoption ([Statista](#)).

WHY ARTIFICIAL INTELLIGENT INTEGRATION IN EDUCATION

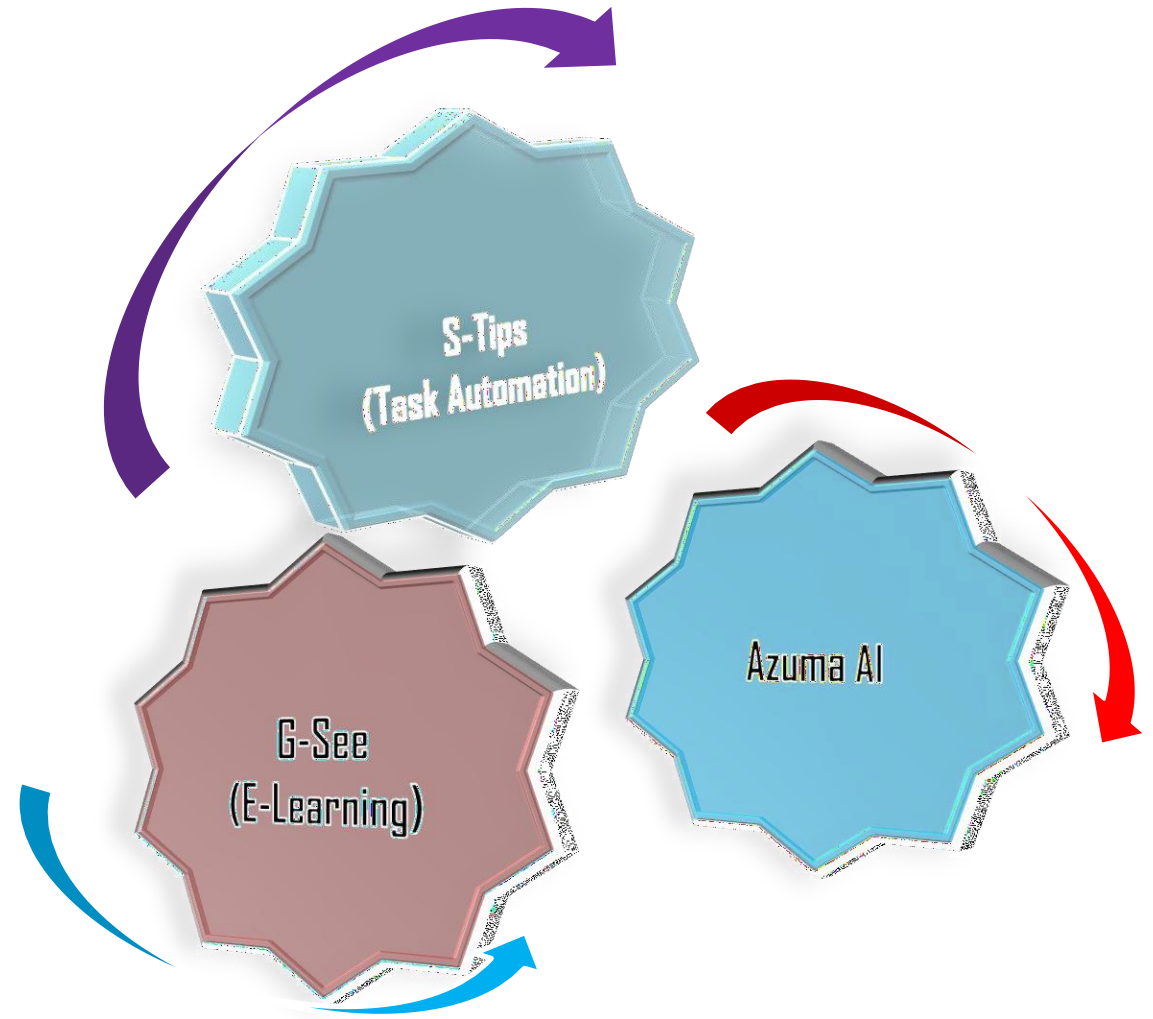

Artificial Intelligence is being leveraged to enhance personalized learning experiences, automate administrative tasks, and provide intelligent tutoring systems. The adoption of AI in education is expected to grow as institutions seek innovative solutions to improve learning outcomes. [ft.com](https://www.ft.com)

SFARET TECH SYSTEM NODE

S-TIPS (Student-Tailored Interactive Platform) is an advanced academic assistance platform designed to provide students with AI-driven support, academic resources, and expert guidance. The platform enables students to submit tasks, select assistance types, and use AI-powered search and voice automation tools.

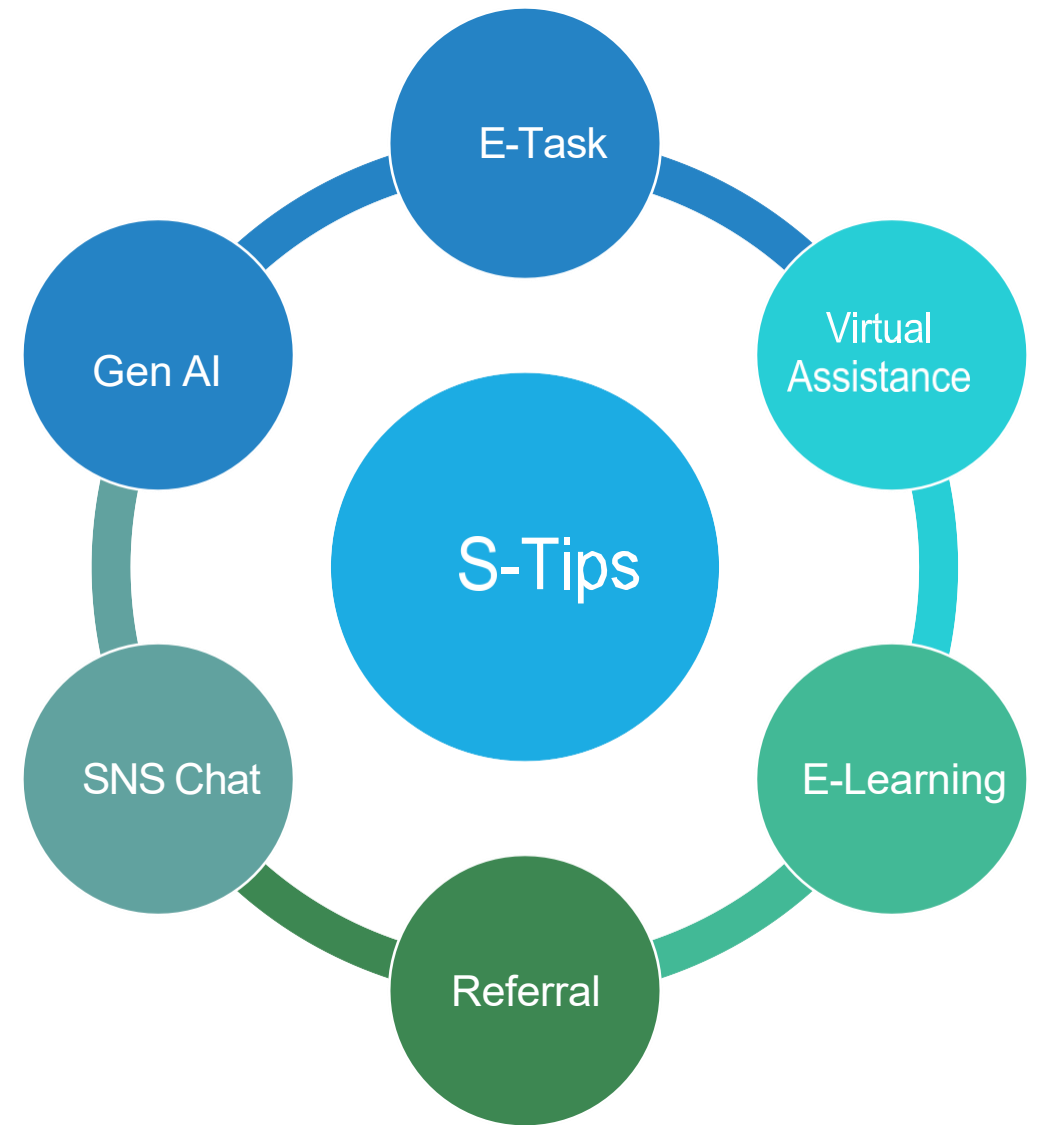

Primary Features:

- E-Task
- AI Automation Chatbot
- AI Search engine
- Virtual Assistance
- Academic E-Learning
- Referral
- SNS Chat

Wallet:

User Wallet and Task Bonus

REVENUE: Task Fee, Subscription, Ads.

Technology Stack: Python, Flutter, Azure etc.

G-SEE

G-SEE represents a holistic approach to education, providing students with the tools, resources, and support they need to succeed academically.

By combining innovative features such as computer-based testing, live tutoring, AI search, and monthly competitions, G-SEE aims to revolutionize the learning experience and empower students to excel in their studies.

With a commitment to continuous improvement and user feedback, G-SEE is poised to make a significant impact on student learning outcomes and educational success.

Primary Features:

- E-Learning
- E-Exam CBT
- AI AZUMA Search
- Leaderboard Competition
- E-Library etc.

SFARET RESEARCH LIBRARY CENTER

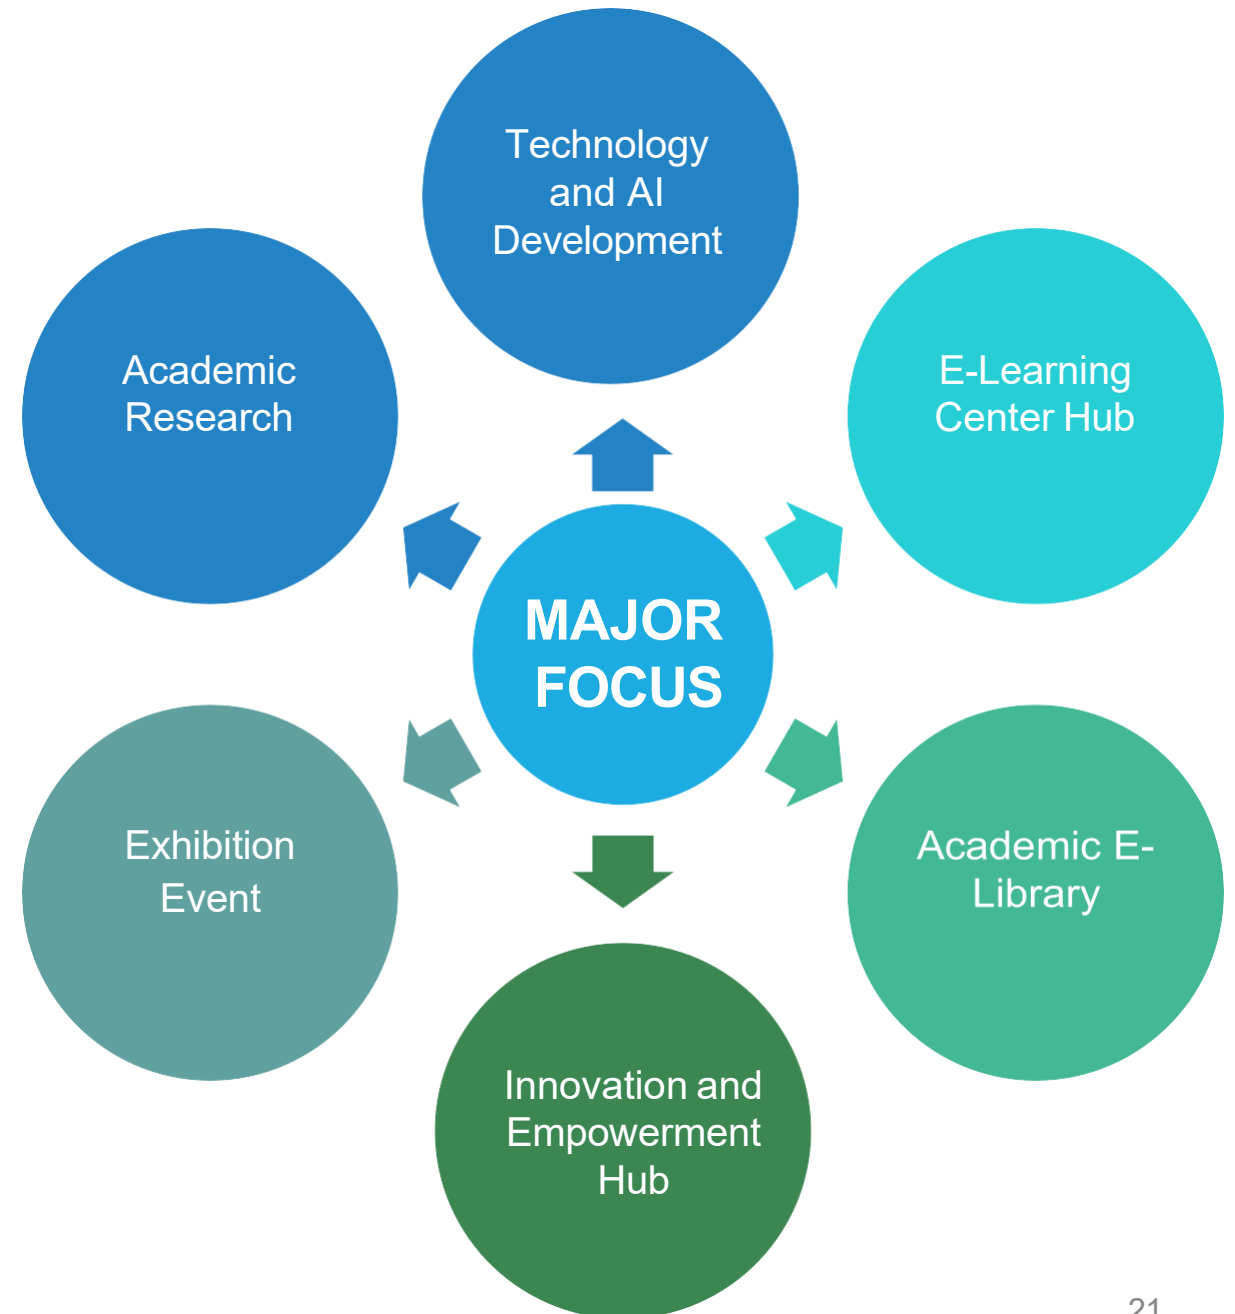

EDU-TECH RESEARCH LIBRARY CENTER

Academic & Technology HUB

We believe improving and creating ideals, skills and empowerment in Education is the key to Africa's development and for them to be advance in use of Technology and other academic facilities that brings productivity. Thus, Sfaret Tech is built on stimulating industrial revolution and empowerment by have a better academic facility to learn, develop and build future innovators to the society.

Our mission is to build conducive Educational industry incubation centers for researchers, Academia, Innovators etc. we can say it will be combination Edu -Tech Research Hubs Center/Outreach

Primary Source of Revenue shall be: Research space Rent, Service Fee, Tech production, E-Exam fee.

SFARET RESEARCH LIBRARY CENTER

REVENUE PROJECTION

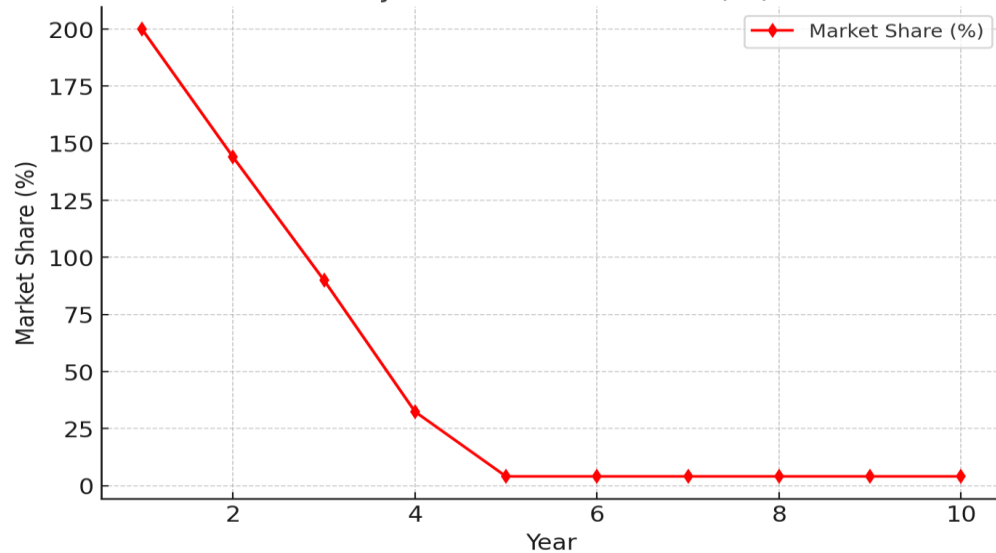

Projected Paying Users Growth (Years 1-10)

Projected Annual Revenue Growth (NGN)

Projected Market Share (%)

This report outlines the revenue projection and market share forecast for S-TIPS and G-SEE and other Products over the next 5 years following their successful launch. The projections are based on estimated user growth rates, subscription pricing, and industry revenue expansion trends.

SFARET TECHNOLOGIES
INNOVATION. EMPOWERMENT

INVESTMENT (SHARES)

SFARET

EMPOWERING EFFICIENCY THROUGH ADVANCED TECHNOLOGY

- We will be offering the public who want to fund our innovations a shares value 20% worth NGN 960 million (\$600,000). To be distributed strategically over several months to facilitate the development of Sfaret Technologies Ecosystem and Innovation, Platforms and Community.
- We plan to let the public buy and hold Sfaret Tech shares at a target price of about **NGN 1 per shares** individual on Seed Investment Phase I and before full launch of Sfaret Technologies Products.
- During the sale and distribution phase, the Community will be able to acquire shares from Pre-Phase I and II, depending on amount of funds received so far for our tech development.

SFARET SHARES

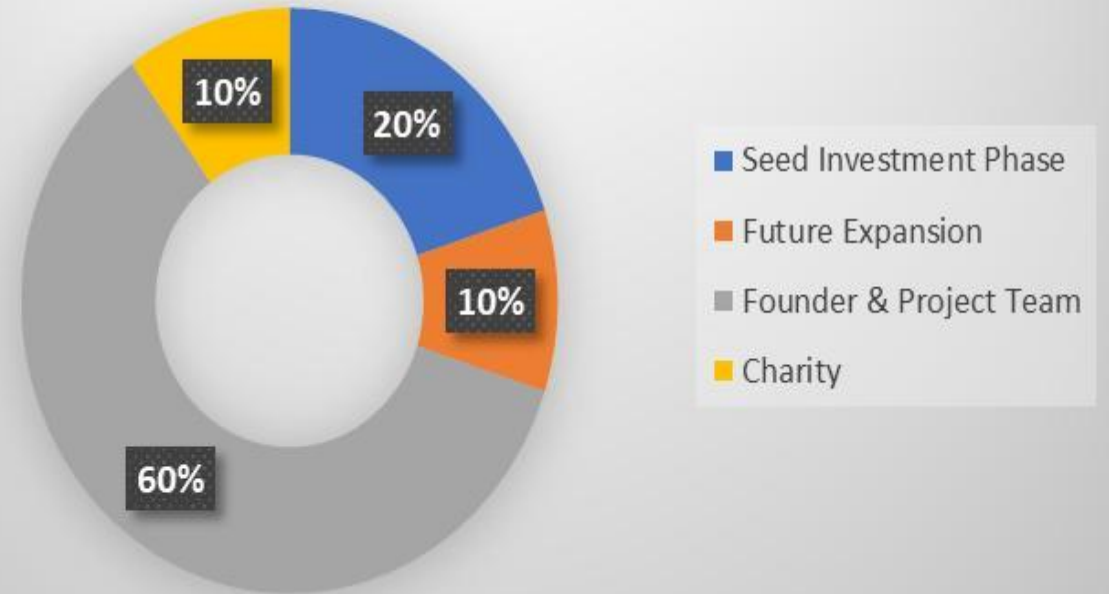

- **BUSINESS NAME:** Sfaret Technologies
- **TOTAL SUPPLY:** 20% (NGN 960,000,000)
- **PLATFORM:** www.sfaretttech.com.ng
- **CONTRACT:** 5-10 years Agreement
- **REFLECTION PROTOCOL:** 1%
- **FUND:** Seed Investment IPO
- **BUYBACK:** Yes 2-3% Return

SFARET SHARES DISTRIBUTION

Distribution and Sale of SFARET Shares will help raise the required investment to drive the Sfaret Innovation to full productivity.

- 20% of total SFARET shall be sold/distributed to the public via core (seed) investment, pre initial public offering (Pre-IPO).
- 10% is reserved for stimulation and expansion of G-SEE, AZUMA AI, Edu-Tech Research Hub.
- 60% shall be reserved for the project team (founding team, advisory team, and operation team).
- 10% will be set for social impact and charity as we fully operate.

SHARES DISTRIBUTION

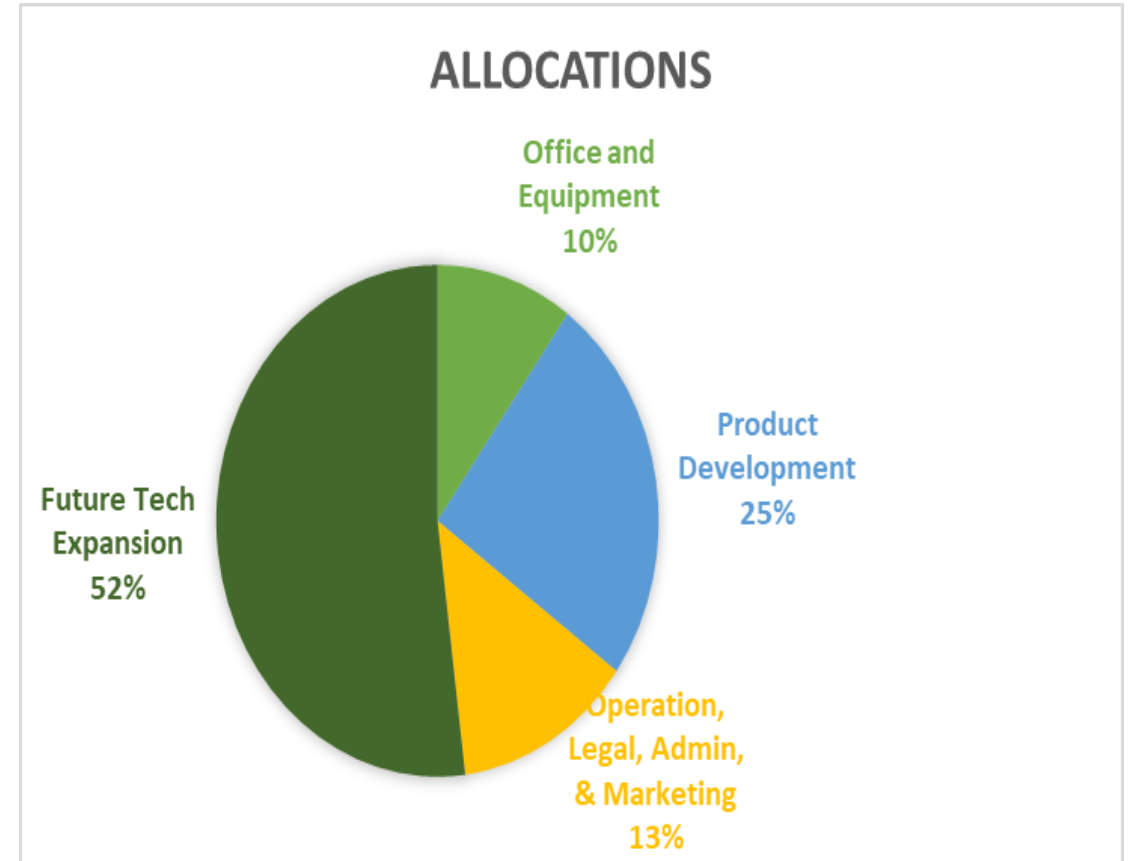

FUND ALLOCATION

The distribution and sale of about 20% Share at fixed prices across a 12 Months' timeline- this will help raise about NGN960 Million (\$600,000), required to drive Sfaret project to full productivity in the first 5 years of Commencement.

However, the Soft Cap is estimated at NGN 4.8 Billion (USD 3 Million), to ensure the Sfaret Platform system is created and become profitable for all Stakeholders.

- 10% is allocated to Official Upgrade and office equipment.
- 25% is allocated build and develop the 1st & 2nd Ecosystem Platform, Portal and App.
- 13% is allocated for Legal, Administrative, Marketing, Promotion and Publicity.
- 52% is allocated for further product expansion development with 3rd year to 5th years of business.

Sfaret Technologies ROAD MAP

Sfaret Tech Software Ecosystem has been scheduled to fully come alive over a five-year timeline.
